Summer 2009

RE: New Graduate Residence Hall (1307 E. 60th Street)

Dear Prospective Students and Applicants,

We would like you to know about some of the unique features at the New Graduate Residence Hall that are in addition to those found in our other graduate student buildings.

UNIVERSITY DATA AND TELEPHONE SERVICES

- Residents will receive the same connectivity to the University data network and University IBX telephone service that is provided to undergraduate dormitories. For more information about these services, please visit [Student Services](#).
- Residents must have an active University Student I.D. number to use the above services.
- No other land based telephone or data service is or will be available in the building.
- There is no monthly service charge, and calls to all numbers with University of Chicago prefixes are free. By use of a personal authorization code, (Authcode), residents will have access to, and be billed monthly for local and long distance telephone use.
- To sign up for a personal authorization code (Authcode) for off campus calling students should visit cMore.uchicago.edu.
- One desk-style telephone instrument will be provided in each apartment. In addition, most standard analog or digital telephones and answering machines can be plugged into this system.
- Connectivity information will be provided to residents at the time keys are received from the Real Estate Office.

Please feel free to contact us if you have any questions regarding the above.

Sincerely,

Real Estate Operations
